

Axiu AX-KPD Full Function Colour LCD Keypad With IR Pass and 2 Way Feedback

Seriously clever, the KPD can be setup as an IR learning keypad to control almost any IR device available. Then connect it to an Axiu amplifier and get full 2 way feedback of power, source selection, mute and volume levels.

The 1.5" colour screen provides plenty of viewing area for the customisable text and font size, even colour and different languages can be used.

The background can be user defined colours or images.

Increase the AX-KPD functionality with the Axiu AX-R4 and you have 2 way applet control with feed back from a host of 3rd party devices in an incredibly cost effective package.

Put that together with IR pass through, European (square) and International (rectangular) black and white cover plate options that ship in the box, it cant be touched for flexibility and performance.

Features and Benefits

- o Ships with Black and White Std and Euro style plates
- o 1.5" colour TFT LCD
 - Contrast ratio = 200:1
 - Viewing angle = 45° (H & V)
 - 240 (RGB) x 320 Dot
 - 64K Colours
- o Operating voltage = 12VDC ± 3V
- o Current draw typically 100mA, Maximum = 140mA
- o Memory: 4Mbytes Flash for GUI and IR commands
- o IR learning for Modulated IR codes.
- o Full featured conditional flow macro functions
- o Wiring: Up to 300m of CAT5E 'Home run' cable
- o Connection: RJ45 plug
- o 2 RJ45 connectors support "Daisy Chain" to and from AX-KPD

and AX-KPC Keypads

- o Universal Mounting options for European or Australasian / USA style flush box with only 12d x 45w x 52h

- o Anti-aliased Text with user defined Font, Colour and Unicode support
- o Background images may be imported and scaled. Supports BMP, JPG, PNG, and GIF formats.
- o Keypad firmware updated using Axiu Keypad Manager
- o 2 way RS232 and IR routing when used with the Axiu AX-R4 and supplied Applets.
- o Current Applets:
 - Integra Tuner, CD/DVD & Receiver including Z2 and Z3.
 - Sonance I-Port docking station.
 - Axiu Alarm, Clock, and Setup
 - BMB T118 RDS Tuner
 - More Applets available
- o Please check www.axiu.co.nz for the latest applet updates
